

San Diego Sevan Games

As the clouds parted on Saturday morning, the Ararat troops made their way to the San Diego Tournament. On February 14-16, 2009, which happened to be both Valentine's Day and Presidents' Day weekend, many Homenetmen supporters spent their weekend at the Alliant International University where the tournament was held. This annual tournament is more than just about winning; it is an adventure, a chance to grow as a team, and as a whole chapter. This weekend demonstrated how all our Homenetmen chapters make it possible for our communities to develop. It is exciting to be part of these Homenetmen Sevan games as a player, coach, fan, or even as a parent. As a whole, Homenetmen Ararat had eighteen basketball teams participating. The results are not measurable, yes we have trophies and medals to

show, but what imprints in most of us are the memories and stories we share. All in all this was another successful, fun filled trip for all and we would like to extend our appreciation to Homentmen Sevan Chapter!
